

InTBIR *Ad Hoc* Meeting
Budapest, March 2014

An *ad hoc* meeting InTBIR meeting was held in conjunction with the International Neurotrauma Society Meeting in Budapest, Hungary March 19, 2014. The goal was to take advantage of an opportunity to meet in person to informally provide updates on progress and to develop an agenda for the next InTBIR meeting. NINDS, CIHR and EU funded investigators that were in attendance gave brief updates on their current progress and issues. Ancillary projects in China, India, and Australia were also described and the need to develop a plan for adding members was identified and will be further discussed by the InTBIR Executive Committee. There were also helpful discussions about what to include on the agenda for the 2014 Annual InTBIR Meeting, to be held in San Francisco, California, June 28-29, 2014.
